Previous Commercial Photographer turned Android Developer, self taught & formally through General Assembly. I enjoy being challenged and solving difficult problems no matter what. I am highly passionate in everything I do, and always willing to learn something new.

EDUCATION

General Assembly, NYC — *Android Development Immersive*

March 2017 - May 2017

12 week full time Career Accelerator developed in part with Google. Here is where I learned to become an Android Developer. From layouts to making API calls, I was coached by experienced Android Developers in the field on best coding practices & how to be both self sufficient and a team player.

School of Visual Arts, NYC — *BFA Photography*

September 2011 - June 2013

A top NYC Art School. I learned from professionals in both the Art & Commercial world.

EXPERIENCE

Splashlight Studios, NYC — *Senior Digital Tech.*

August 2016 - February 2017

+ *Helped manage the Digital Tech team for clients such as Macy's, Bloomingdales, & Victoria's Secret.*
+ *Set project standards & assured quality delivery of images to clients on a daily basis.*

Tory Burch, NYC — *Senior Digital Tech. / Color Management*

July 2015 - March 2017

+ *Helped establish the in house Photo studio & implemented procedures that helped transform the brand look / style.*
+ *Managed images delivery & ensured all images had 100% color accuracy*
+ *Helped launch Tory Sport.*

Freelance Photographer, NYC — *Photographer / Digital Tech.*

January 2012 - February 2017

Photographer & Digital Tech with various clients in NYC including:

+ *Vogue / Cosmopolitan / North Face / Wired Magazine*

+ *Esquire / Victoria's Secret / Uniqlo / J. Crew / Food Network*
